## Introduction

JoeCOIN was launched in August 2021. JoeCOIN is the fastest-growing cryptocurrency of its kind and is a tribute to the most senile president of all time!

To not make a meme token celebrating the ridiculousness of the man running the free world while at the same time doesn't possess the cognitive ability to order an ice-cream would be a crime against MEME coins!!!

\$JOE is a decentralized MEME token with anti-whale functionality and no team allocation to ensure a 100% free and open decentralized community based token!!!

## What is JoeCOIN

JoeCOIN is a decentralized Meme Token celebrating everything that is wonderful about Sleepy Joe Biden.

JoeCOIN is a community token with no owner and anti-whale attributes to make it completely fair and honest, which is more than I can say for Creepy Uncle Joe!!!

JoeCOIN is on the Binance Smart Chain and boasts anti-whale features to ensure a level playing field and security for all!!! Our exciting Creepy Joe App enables users to guess the date of when Creepy Joe will die. The winner gets up to \$2,000,000!!!

## Scam Free, Whale Free, Rug Free

**JoeCOIN is completely safe and secure with no chance of scam, whale dumps or rugs. On launch all remaining tokens are instantly sent to PancakeSwap as liquidity.**

**The team has no initial allocation and our anti-whale feature means only smaller transactions are allowed and no large dumps will occur.**

**We have taken every step to ensure a safe and secure experience with JoeCOIN!!!**

## Community Token

JoeCOIN is a community token like no other. Not only does JoeCOIN not have an owner (ownership renounced when launched) it also has no initial team allocation. The Developers of \$JOE will buy JoeCOIN on the exchange like anyone else.

\$JOE also has anti-whale functions that encourages many holders and not just a couple whales who control the market.

## Tokenomics

No Allocation for the team as this is a community token. Of each transaction 2% will go to holders as rewards and 3% will go to auto liquidity for further growth!!!

We felt it was important that the greater tax goes to liquidity therefore creating more of a liquidity base against rewards incase holders sell rewards!

## Token Allocation

Total supply:  
46,000,000,000,000 \$JOE

Burned:  
50% (23,000,000,000,000 \$JOE)

Marketing:  
1% (460,000,000,000 \$JOE)

Creepy Joe APP:  
0.1% (46,000,000,000 \$JOE)

Airdrops:  
0.05% (23,000,000,000 \$JOE)

MEME Comp  
0.01% (4,600,000,000 \$JOE)

\*The remaining 97.7% (22,466,400,000,000) is  
locked to Pancakeswap as liquidity.

*\*No Allocation for the team as this is a community token.*

## Creepy Joe Club

Creepy Joe Club is an exciting app, where users can vote on when Creepy Joe Biden will die!

The winner gets up to \$2,000,000 or 0.1% of the total supply. Creepy Joe Club winnings are locked and get sent to the winners BSC address!

*\*December 2021 we launch the completely decentralized version of the app*

## Decentralized Distribution

It is JoeCoin's core philosophy to be truly decentralized. It plays a large role in ensuring the future token value remains stable and serves as an effective anti-whale measure.

JoeCoin aims to have over 1,000,000 unique hodlers within the first 12 months!

## Why Binance Smart Chain?

We have chosen to launch \$JOE on the Binance Smart Chain as it has many benefits over other platforms, including far lower fees, faster transaction speeds and environmental factors that when added together make it a stand out platform for JoeCOIN!

## Benefits to Hodlers

Holders of \$JOE receive 2% of every JoeCOIN transaction. You do not need to do anything to receive these rewards as they get deposited automatically to your wallet!

Obviously the more \$JOE you hold the more rewards you will receive!

## Road Map
